

Edco MGBW-LUG Ground Rail

Fits Standard 66M1-50 Punch Down Blocks

Split Block Variations

Edco MGBW-LUG Ground Rail — Designed to fit standard 66M1-50 Punch Down Blocks allowing the Edco H-Series, COHP, PB Series, OPX and other similar Surge Suppressors to access ground when snapped onto a 66M1-50 Punch Down Block.

A Standard 66M1-50 block is capable of accommodating up to 25 Edco surge suppressors.

Application Diagram

When installing the Edco Grounding Rail with the Siemens 66M1-50CC (Traditional) Wiring Block, the base of the grounding rail should be installed on the top of the bracket and nylon washer.

When installing the Edco Grounding Rail with the Siemens 66-M1-50C (New Category 5) Wiring Block, the base of the grounding rail should be installed on the bottom of the bracket.

MGBW-LUG always located on "Outside Plant" field side of punch block.
